Consent For Treatment

I give permission for Kairos Counseling, through Carol A. Krentz, LPC to provide individual counseling to me .

As a client of Kairos, it is your right to have the content of your therapy sessions held in confidence with these exceptions in which I am mandated to report:

- 1) if you sign a release form for me to divulge any or all information
- 2) if you intend suicide
- 3) if you intend homicide
- 4) in the case of child, elder or handicapped abuse

In some cases, the Missouri courts have held that if an individual intends to take harmful or dangerous action against another individual, it is the counselor's duty to warn the person and/or the family of the person who is likely to suffer the results of harmful behavior. Every effort will be made to resolve these issues before such a violation of confidentiality takes place and to prevent an attempted suicide or a dangerous action against another person.

I have read and agree to the above policy, procedure and statement.
